**LILOU:** Hello my beautiful co-creators! Lilou here on the beautiful Juicy Living Tour. Today I'm in Hawaii. I was supposed to do the Juicy Living Tour for Europe, but I couldn't not come here, in Hawaii, for the World Congress of Quantum Medicine, with Dr. Emoto. How are you doing?

**Dr. Masaru Emoto:** I'm fine, thank you.

**Lilou:** Thank you for doing this interview in English. I know this is not your first language, and I really, really appreciate it. We will subtitle it in English, too, but this really helps, when it is directly in the same language. So, thank you very much! It's an honor to be interviewing you today. As most of you guys know, Dr. Emoto is an international researcher, and you might have read his book "Messages from Water", "The Hidden Messages in Water". You sold millions of copies all around the world. And you have done profound work that is helping so many people on the planet to explain something that we feel inside, and you wanted to prove it scientifically. Tell us about the core of your research... why this research?

**Dr. Masaru Emoto:** My research for water is to prove that water can have a memory and can carry memory.

**Lilou:** How do you prove that water has memory, and memorizes and feels?

**Dr. Masaru Emoto:** I freeze water. For instance, this is a shell (ed: *petri dish*), a drop of water, and I freeze this drop for 3 hours, at minus 30 Degrees Celsius. And after freezing I take that, and research the drop by usual microscope with camera.

**Lilou:** And you found out that water reacts to feelings, to music, to pictures, to all of that?

**Dr. Masaru Emoto:** Yes. First i tried to examine water from tap water and also natural water all over the world. And tap water made not so beautiful crystal, but some natural water, all over the world, made so nice, beautiful crystal. And "What is this?", I thought. Because only for two minutes crystals are alive. When temperature becomes 0 °C the crystal disappears - like an illusion. "What is this image?", and I thought that this image must be the design of vibration. And so, to prove that I tested water after

listening to nice music, and did the same testing. And I found that if I listen to nice music, the water made so beautiful crystal. But with not so good music, like noisy Heavy Metal music, it didn't. And I showed also names of [??] to water, and picture to water, and even prayed to water. Before and after, every case is different. If beautiful [??] and beautiful prayer, beautiful picture, it made so nice, beautiful crystal. But contrarily, every bad picture(ed: , etc) didn't make.

**Lilou:** What does that tell us about this universe? What does that tell us about life?

**Dr. Masaru Emoto:** Because I think this universe, including our bodies, are made from water; 100% made from water - I believe so. So, if human being's consciousness is (ed: *really*) beautiful one, this universe also must become beautiful one. But if human being's consciousness not being beautiful one, also universe is not so beautiful.

**Lilou:** So, you're saying water is like this life-force, is like even God, Spirits?

**Dr. Masaru Emoto:**

I believe so. Actually, water is the messenger of God. Now I believe that one hundred percent.

**Lilou:** Did all the pictures of the crystals prove that, or did you have to kind of take the best ones to prove what you wanted to prove? Is that really consistent all the time, this research?

**Dr. Masaru Emoto:** Actually, from one sample of water we take usually 50 pictures. And some pictures are not so good, but some are beautiful, too, and some are neutral, and I choose the best, beautiful pictures from these fifty. This is my philosophy.

**Lilou:** Because I think that sometimes, when we say "I love you" or "I'm grateful", there is different intensity, different levels of frequency - sometimes it's very deep love and sometimes it's little love... do you see that?

**Dr. Masaru Emoto:** If I say to water "I love you [??]", no; no reaction. But if I say to water "I love you", it makes so nice pictures.

**Lilou:** Then, knowing that, why would you say, we get sick? What is your understanding of sickness and diseases?

**Dr. Masaru Emoto:** We must live daily life as God scheduled (ed: *or*) planned, otherwise we get sick.

**Lilou:** So, as soon as we are in vibrational disharmony we get sick? If we have a regular vibration, in harmony, then we won't get sick?

**Dr. Masaru Emoto:**

Yes. Otherwise, you know... This universe, planned by God, using vibration. And each vibration has each

character. For instance, "Do - Mi - So", this is a very good harmony. It will make a constructive world. But in case of "Do - Re - non-scale note", no harmony. This energy will be destructive energy. So, if human beings, each human being, (ed: *transmits*) different energy, this planet surely will be destroyed soon.

**Lilou:** There is a lot of people praying, and the water here - there are dolphins and whales, beautiful energy, and there is war in other countries; war and hatred, and we have negative thoughts, too - How does this all blend together? How is it possible that one day there's more positive thoughts than negative and this earth will change, you think?

**Dr. Masaru Emoto:** To educate children on what is water.

**Lilou:** Yeah, the best way is to educate children.

**Dr. Masaru Emoto:** Yes. Important - education is most important.

**Lilou:** And this is how you think we can change the world?

**Dr. Masaru Emoto:** No. It's just that I think, show them my pictures - before and after testing, and they will know everything instantly. Because it is written everything in human being DNA, you understand?

**Lilou:** What is the co-relation between the DNA and the water?

**Dr. Masaru Emoto:** Actually, our DNA activity is at only 3 % of 100 %. Professional scientists say so. Human being DNA activities is only 3 %. That means another 97 % is sleeping. So, we forgot another 97 % of wisdom, of our information from our ancestors, mainly from God. So, we current human beings are all stupid - I believe so.

**Lilou:** Thank you so much Dr. Emoto, for this video, and for taking the time, during the conference, to this video. Thank you!

**Dr. Masaru Emoto:** Everything will be told at the conference, this Sunday. Please...

**Lilou:** We will definitely be here, to listen to this full day of conference here, with you, at the World Congress of Quantum Medicine, here in Hawaii. I send you much love my beautiful co-creators. I hope you have enjoyed this message from Dr. Emoto! If there is a last, little message or actually something you would like to say to everybody, what would that be today?

**Dr. Masaru Emoto:** This December 21st is set as the last day of Mayan calendar. They organise a big world summit from December 18th to 22nd. I was nominated as the first speaker of the new era. This means, December 22nd, from the morning. And i will speak a very important message to all of the citizens all over the world. Please...
