LILOU: Hello, Diana.

DIANA: Hello, Lilou. How are you?

LILOU: How are you doing?

DIANA: I am perfect, thank you.

LILOU: You look radiant, absolutely radiant. I enjoy seeing you on Skype after meeting you in person. I remember all those beautiful videos that we have done that went all around the world and we talked about angels and archangels and it was a wonderful conversation.

DIANA: It was. I really enjoyed it.

LILOU: And you are so popular, you're so well-known in Europe. I'm doing the juicy tour Europe, I'm traveling around Europe and interviewing a lot of people and your name comes up very, very often.

DIANA: Good.

LILOU: Why is that?

DIANA: Because people like angels.

LILOU: They do. We do, don't we?

DIANA: Absolutely. Yeah. And because I'm not just into angels, I talk about unicorns. I talk about all the amazing energies coming in now and what a fantastic opportunity we've got ahead of us. And not just this doomm and gloom stuff that people are so keen on.

LILOU: Yeah. Can you remind us how this happened to you and how you start receiving messages? Was it a long time ago?

DIANA: It's a very long time ago. It was when I was 42 and I was in total despair and I couldn't see a future and was getting divorced and I threw myself into a chair despite the fact that I had no religious or spiritual background and said if there's anything out there, help me, and you've got 1 hour. And that's when an angel came in to help me. Despite having no background in it, I knew it was an angel. And that was the starting point for something different happening in my life.

LILOU: Very different, yeah. You wrote many books on the orbs, atlantis, the angels, and I'm very interested about your latest book because a lot of people obviously talk about 2012. We are in 2012. A lot of prophecies point at 2012. But you're writing a book about this golden age, the transition to the golden age 2032. Oh my goodness, this is the new date? Tell us. How does this information come through and what is it about?

DIANA: Well, the information comes to me from my guide and from the angels. What it's about is they don't get locked into the forecast of doom because of course we are going through a transition. This is like a house move, you've got to clear out your attic and clear out your cellar and we're going through that in the world right now which is why we've got pricings and we've got the economy failing. Everything that's not in alignment with the new paradigm is collapsing. So all the dinosaur businesses that are based on greed and selfishness and just profit, they are all going to fade away so that the new can come in. and the new paradigm is about cooperation, working together, working for the planet. We've seen an example of the celebration and people working together in the Olympics and paraolympics and that's what the future is about, joyously expressing ourselves, practicing for our excellence instead of this business of putting people and some have's and have not's. This year we have this extraordinary cosmic moment which is on the 21st of December and it's at 11am wherever you are, local time, and that's the moment when the portals of heaven open and source light bathes us all just for an instant. If you are ready, then it will massively impact on your life and you have huge opportunities for spiritual growth. And of course if you're not ready, it will just float over you and you probably won't notice it at all. But it will start to change the world. London is the earth star chakra of the planet. That's where the kundalini rises. That's the spiritual essence of the planet and that's why the Olympic games was held there to raise the energy to start preparing it. And I have a day there on the 7th of October to really bring the angels and to prepare London so it's ready to move for the kundalini to set fire on the 21st of December. And then all the planetary chakras start to open and the whole planet moves into a higher frequency. But this process is taking place over 20 years, it's not just bang and it's done. Every single dark or negative palace on the planet is being cleansed and so by 2032, everywhere you go on the planet will feel pure. You know when you go to a palace –

LILOU: Everybody, for everybody, Diana? Or just the people that are certain frequency?

DIANA: If you go to a power spot, to a beauty spot and you come away, you feel good. It's quiet. And so the whole planet will be like that for everybody. By 2032, those who are not interested in living in peace and harmony will start to leave and so it will be the people that are higher frequency that want to work together and cooperate will stay and will continue on this planet and others will move to a planet where they can continue with their frequency. So by 2032, the world will be a very different place. There will be people living in communities, things will be built according to feminine principles, we've got this railroad and rigid structures, houses are all square, that's all a masculine energy of the old age. So we're moving into a softer, more feminine, more accepting and loving energy where we on a nature appreciate the animals, value of animals and the fact that they're on their own journey and that we really should be helping them on their journey, not doing what we're doing to them. All these things are going to start coming to the general consciousness so that people start living it.

LILOU: There is a lot of people speak about their kundalini, their own country, as I'm traveling around the world, through Hawaii, - doggie, I can see him – as I'm traveling around through Mexico and Hawaii and all those different places, I'm clear that everybody is saying the kundalini of the earth is here and this is the earth's chakra and it's here where I live and everybody is so proud. Hey you. hey you little thing, you're so cute.

DIANA: She's the best. She's the [??] dog in the whole world.

LILOU: Absolutely adorable.

DIANA: Off you go. She heard my voice, wondering what I was doing, I expect.

LILOU: Ohh. Adorable. Do you know what I mean? Everybody feels that they're living in this place and there is a lot of light workers that I have been interviewing that are working on portals, that are working on the karma of the earth and lightening of this place, it's happening everywhere.

DIANA: It is happening everywhere and what is important to realize is that people go in and they clear the energy from the place and then other people come in and they dump their stuff there, so it's a continuous process and the more people are doing the cleansing and clearing and having ceremonies and bringing in the light, the better, because we have a choice. The whole planet has to be cleansed and this can be done, and all the [??], this can be done through earthquakes and fires and hurricanes and things, the weather, or we can do it with sending love and light into the ley lines and changing what's going on ourselves. And basically it's our choice.

LILOU: And regarding the kundalini, why London? Because we hear it's in Mexico and Hawaii.

DIANA: This is the guidance I received from my guide that the earth star is in London, everything has been prepared. Remember when we're talking about the chakras, there are emotional chakras and spiritual chakras and mental chakras and all sorts of different ones at different levels and dimensions. I am talking about the 12 5th dimensional spiritual chakras of the planet. So my understanding is that London is the earth star and then [??] chakra and so it goes on right up until all 12 are open and radiating. But there are lots of other things happening this year and people are also getting confused with those energies because there are 33 cosmic portals opening. Each containing Christ light and when they start to open, they will radiate this unconditional love energy out into the world. And that means people will unconsciously pick it up and start to be affected by it. And then there are pyramids that are going to be opening and starting to access all the information so that people can wake up to the information within them. There are other portals opening that are absolutely awesome which for the first time will start to radiate their light. So there are masses and masses of energetic happenings taking place.

LILOU: Everywhere.

DIANA: Everywhere. Everyone's being affected.

LILOU: Yeah. And how do you get this information? Is it through hearing or you write and you receive it directly from those angels? Because there's so much information out on the internet that it gets quite confusing for a lot of us and some people are even saying that some of those channels are not so clear, not so pure and that's something raising and people are getting confused. There's so many channels and so many things. So how do you know that this is it?

DIANA: You've raised a very important point here and I think the answer is if it resonates with you, accept it. If it doesn't resonate, then don't accept it. It's not for you. When I worked with Cathy Crowell and when we work together, our energy can lift to a higher frequency and we can bring in a higher and purer and clearer channel. And so a lot of the information I've brought through with her when we're together and that's, I believe, very pure and clear.

LILOU: These days, people are going through like washing machine and a lot of difficulties in their own life. What is your recommendation as to what to do when those happen, is it part of the process?

DIANA: It is part of the process because 2 things are happening. One, everybody has to clear their own stuff and you think you cleared it and like yes, I've done that, I've dealt with my parents etc, and bang a little bit more there and it has to come out now, part of that is part of the process. Also people are opening up and they're being hit by other people's energy and planetary energy and energy that's coming into the universe, all of these things are making people feel vulnerable and knocked around. For example, earth has been batted by 3rd dimensional energy and the reason is because we've sent out [??]

and spacecraft and all sorts of other junk into space that's made with 3rd dimensional consciousness. And so it attracts from other universes and this universe, 3rd dimensional energy, that is going to stop at the cosmic on the 21st of December because there's an energy coming up from hollow earth, the center of the planet which will put a protection around the universe and around the planet. And so part of this will be eased after that date.

LILOU: So when we meet those difficulties in our own life, should we just let it be and let it go through us?

DIANA: Stay grounded. I think that there's a lot of things I try to do every morning which is take my shoes and socks off and stand on the grass in barefeet and call in archangel Sunderphon and send my roots down into the earth star chakra, my own personal one, and that's your own garden of Eden. All your own potential is held there and then send the energy right down into the center of the earth and connect the love of Lady Gaia, connect to her heartbeat and when you do that, you start to feel belonging and welcome and protected while you're on earth on this journey. And that helps you to deal with a lot of things.

LILOU: Yeah.

DIANA: Sorry. Remember also that we have this double venus transit. 2004 then again in 2008 and it was so powerful. It started to bring in the divine feminine energy but because of the energy, it [??] a riff between the worlds, created a tear in the veils. That's such a strong energy that it allows much higher frequency into the planet and people aren't used to it. They get knocked around by great light and so you can call in a special bright red energy from the center of the earth that is so powerful that has to come surrounded by golden wisdom and place it over your 5th dimensional aura so that you have a 7th dimensional protection as well.

LILOU: Wow. I'm very earthy person and I too love angels, oh my goodness, I love them. And there is this, when talking of 5th and 7th then I just like, oh my goodness, what is 7th? What is 7th?

DIANA: 7th is the angelic realms.

LILOU: That's the angelic realms. So they have a higher vibration than the 3rd where we're at or most of us are at?

DIANA: Well, the earth itself is numbered into the 4th dimension which is where more people are opening their hearts and recognizing they're on a soul journey. Our aim is that every single person in the planet be in the 5th dimension by 2032. Now that's when people are working on the highest good everybody and each other. And so it's not about self anymore. It's cooperating, people all feel belonging

and safe. Above is the 7th dimension which is the angelic realms. Below is the hollow earth, the center of earth, the love center of the planet and that's also 7th dimensional. So we can go up into the 7th dimension and down and when we have our 12 chakras fully open, then we can do that, coming to perfect balance and harmony. I'm not trying to claim I'm there.

LILOU: Now, but Drunvalo speaks or other teachers that there are amazing beings in the center of the earth, so there must be, it comes, we start to understand that we have also the universe inside of us and there is another universe inside of the earth as there is outside. How are those linked together? And is it that important to understand?

DIANA: I don't think it's important to fully understand. I think it's important just to feel it because literally everything is one. And when everything is one and you've moved beyond time and space, it is just is, and everyone can just be. And that's also where we're going to be at.

LILOU: So how do you define the unity and this oneness that a lot of people speak about?

DIANA: Well, have you ever been out on a beautiful starry night, a warm starry night? Everything is silent and still and you can see all the stars and a canopy above you. that's the sort of moment when you can feel the oneness because you can feel that everything is just part of something huge and enormous beyond comprehension.

LILOU: Does it also mean that what I feel in you, what I feel in myself is also in you and vice versa?

DIANA: Yeah.

LILOU: So, can we say that our life right now, whatever situation we're in, however difficult or easy it is, it is really a reflection of who we are?

DIANA: Sure. Everything. We create everything. We unconsciously call it in. so your aura is going around you and it's got all these symbols and it calls things in, things from past life, things that you want to experience and you have a choice because you can place wondrous golden qualities in that. And in the keys of the universe, we give the 20 golden qualities and these are very simple but if you develop those qualities, then your whole aura sings a symphony of harmony and that's what you're radiating out. Now, if everybody in the world is radiating a symphony of harmony and we all come together to sing in harmony, then that's oneness.

LILOU: And isn't that something that we can experience in nature? It feels like our heart is very connected and it gets very connected to nature and mother earth as we open up and it feels like it's a very natural process.

DIANA: Well, enlightenment and oneness, a 7th dimensional experiences, we can't live in the 7th dimension while we have a human body but we can have moments of it. And so if you're sitting by the ocean and you're watching a dolphin playing and you feel completely at one with everything, you've had a 7th dimensional oneness moment.

LILOU: Not a 5th.

DIANA: Not a 5th. That's beyond the 5th. It feels like we keep on upgrading and that's why a lot of people feel like the end. This is why it's so important, okay now we're in 2012, we finally would happen now, I know it's gonna be 2032 and know it's not anymore 5th dimension, it's 7th.

LILOU: It's like –

DIANA: We're 5th dimensional while we're on the planet and that's what we're aiming at. And of course that's a huge band. So you can be just stepping into the 5th dimensional or you can be living in it fully or you can be right up here, a great master.

LILOU: With the angels.

DIANA: Well, the angels is 7th dimensional.

LILOU: 7th. Okay. Is there something else that you would like to share with us? Some information that you're receiving as we speak or something else that came to you recently that feels important to talk about in this particular conversation, discussion?

DIANA: One of the things that's really, really important is the animals and their portal of yellow stone is opening and that is a vast, vast portal. And it's about to start opening and will continue to open to 2032 and it radiates a yellow energy and the angel of animals, archangel Fhelyai is also yellow. And as it radiates this energy, it helps people everywhere to understand that animals are on their own ascension pathway and we really need to honor that. And it also helps the animals to ascend.

LILOU: Thank you, Diana. Thank you very much for this beautiful conversation.

DIANA: Well, thank you.

LILOU: And for being available and maybe we'll have the opportunity to do another video in person in England or wherever you're traveling.

DIANA: That would be lovely.

LILOU: Thank you.
